A true copy of Warrant—Attest:

MARGARET A. CLARKE,
JOHN M. JACKSON,
FRANCES H. DOW,

School Board.

To the citizens of Windham:

We hereby submit our annual report for the year ending June 30, 1923, with the estimates for the next fiscal year, 1924-1925. Each school has kept the required number of weeks. We have employed the best teachers, that was possible for us to obtain, as that seems to be the only way to bring our schools up to the standard, under present conditions. It was possible to have the Dental Clinic in our schools this year, through the kindness of the Woman's Club, Neighborhood Club and the local Red Cross. We are glad to report that about 95 per cent of the children, availed themselves of the opportunity to have their teeth attended to, as we believe good teeth are the foundation of good health. The budget we present, will cover the needs of the schools for the year 1924 to 1925.

MARGARET CLARKE,
JOHN M. JACKSON,
FRANCES H. DOW,

School Board.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Windham School Board:

It is with pleasure that I present my fourth annual report. The work of the schools has progressed uninterruptedly except for differences in the periods of vacations and other minor difficulties.

METHOD OF SUPERVISION

The same method of supervision has been employed. That is, after making evaluations of the results secured, the necessity of emphasizing a particular subject or phase of school work is based on the character of the results secured.

Tests have been given in reading, writing, spelling, elementary number work, or the fundamentals, history, geography, English and grammar for content values.

An interesting examination in spelling and arithmetic, issued by the State Board of Education was given to the eighth grade in October being the same

examination that was given at Springfield in 1846.

The results are summarized below. The inferences that may be drawn are obvious. The work of city and village graded schools comes in direct comparison with the work of rural type, fundamental in nature.

THE SCHOOLS ARE FOR THE CHILDREN

Our limited cycle of existence and scope of activity leads every one to feel the importance of doing a little better by the future generation and giving every child a fair chance to find himself and his occupational level. Such a course of procedure works not only to

the advantage of the child but to the economic advantage of the community. In short the schools should have the responsibility of finding the child whose earning capacity by traditional methods of education would normally be \$1500 per year when such a child by a fuller exposure to the major activities of life would be capable of earning \$5000 or more per year.

COOPERATION

Teachers, parents and citizens should feel free to cooperate in the administration and supervision of the schools. Such a method secures the greatest amount of development and growth. This statement does not mean to infer that cooperation of the teacher is of an optional nature to be exercised or not according to the inclination of the teacher.

RESPONSIBILITY

It is a responsibility located with the teacher to insure the production of results. Without the imposition of responsibility for results being located as a part of the cooperative policy the general results are apt to be poor.

The advice and cooperation of parents, teachers and citizens is solicited and any suggestions that may be made relative to the improvement of the school system as a whole will be greatly appreciated.

Some one is responsible for the condition of the schools as we find them. If the solution of the problems arising from these conditions is a cooperative one, as I believe it is, the price of the solution is your time and thought, the time and thought of the school teachers and the time and thought of the school board.

In conclusion I wish to express to the School Board my appreciation of their generous assistance and spirit of helpfulness in conducting the work of the schools.

Respectfully submitted,

Carl Cotton,

Derry, N. H., February 21, 1924, Superintendent
Schools.
